🚒 A Gentle Reminder for Reporting Occupational Accidents

Dear Colleagues,
Should an occupational accident occur during work, it is imperative to promptly report it to the Environmental and Safety Technology Center! This is not intended to burden anyone with paperwork, but rather to identify the root causes, improve the working environment, and prevent recurrence.

- ⚠️ ⚠️ Please ensure immediate reporting under the following circumstances ⚠️ ⚠️
- 👉 In the event of a fatal accident.
 - 👉 When the total number of workers suffering permanent total disability, permanent partial disability, or temporary total disability from the same incident reaches three or more.
 - 👉 When one or more individuals are injured and, following hospital diagnosis, require inpatient treatment (excluding mere observation).

🕒 Kindly remember:
“Prompt reporting leads to swift improvement!”

If you have any questions or are uncertain whether an incident requires reporting, please contact Ms. Zhuang at the Environmental and Safety Technology Center, extension #2831. We are here to assist with assessment and follow-up.
